SHASHWAT CHAUHAN

UI/UX & Dashboard Designer

designedbyshashwat.in

I'm a **product-based designer** turning complex systems into intuitive interfaces and data-driven dashboards. I design scalable UI systems, interactive UX, and AI-powered SaaS products built for real-world use cases.

Work Experience

Product Intern | Stackwall Technologies Pvt Ltd
May 2025 – Nov 2025

• Designed dashboards and **end-to-end UI workflows** for 3 clients, collaborating development team for implementation.
• Built scalable UI components and reusable component library for faster delivery and consistent handoff.

Work

Digital Designer | Upwork
Mar 2022 – Jan 2025

• Delivered **24+ paid digital projects** including UI/UX design, web prototyping, deployment, and visual brand assets.
• Collaborated with international clients to turn their requirements into polished interfaces under tight timelines.

Work

Selected Projects

Navigation UX Redesign & Heuristic Testing | Google Maps

• Conducted usability tests, journey mapping, and redesigned navigation to reduce cognitive load and improve routing.
• Improved usability outcomes (+36.4% SUS, -52% time-on-task, -66% interaction cost) through iterative refinement.

Case study

Trading Progress Tracking Dashboard | TraderAI

• Designed a trading performance dashboard enabling users to track progress and request payouts with clarity and trust.
• Streamlined progress tracking, analytics review, and payout requests into a single workflow, reducing user confusion.

Design

Content Recommendation System | Streaming Platform UI

• Created a scalable streaming app UI with strong visual hierarchy and structured navigation to improve content discovery.
• Designed a recommendation logic to personalize visible content and surface relevant titles to the users.

Case study

Digital Design Assets | RR Kabel (RRGlobal)

Designed high-impact digital marketing assets for RR Kabel ensuring strong brand consistency while supporting campaign rollout, product awareness, and customer adoption.

Design

Skills

UI/UX Design | Dashboard Design | User Flows | Wireframing | Information Architecture | Data visualisation
Interaction Design | Responsive UI | Design systems | Usability Testing | Prototyping | UX Research

Tools

Figma | FigJam | Webflow | Adobe Illustrator | ProtoPie
WordPress | Notion | Power BI | SQL | Python (LLM tools)

Education

B.E. Electrical & Electronics Engineering (2026)
BITS Pilani, K.K. Birla Goa Campus
